

Paper Collapse is a simple jQuery accordion plugin which allows you to collapse & expand paper cards with fancy CSS3 transitions. Inspired by Google [Material Design](#) for [Android L](#).

## How to use it:

1. Include jQuery library and the jQuery paper collapse plugin's CSS & JS in your document.

```
1 <link rel="stylesheet" href="paper-collapse.min.css">
2
3 <script src="//code.jquery.com/jquery-1.11.1.min.js"></script>
4 <script src="paper-collapse.min.js"></script>
```

2. The Html structure to create a paper card-style accordion interface.

```
1 <div class="collapse-card">
2   <div class="title"> <strong>Your title goes here</strong> </div>
3   <div class="body"> Your content goes here </div>
4 </div>
```

3. The plugin will be auto initialized on the containers which have CSS class 'collapse-card' added. Override the options as shown below to customize the accordion.

```
1 animationDuration: 400, // animation duration in ms
2 easing: 'swing',
  // Requires <a href="http://www.jqueryscript.net/tags.php/?jQuery UI/">jQuery UI</a> or jQuery easing plugin
3 onShow: function() {}, // callbacks
4 onHide: function() {},
5 onShowComplete: function() {},
6 onHideComplete: function() {}
```
