Chrome, IE9+, FireFox, Opera, Safari   filtering   Filter   Portfolio

JPortilio is a JQuery plugin which allows you to categorize, sort, and filter a responsive grid of items by tags. JPortilio can be used to creating portfolio, but not only.

Basic usage:

1. Download, unzip and copy the jQuery jPortilio plugin's CSS and Javascript files to your project. Make sure the `jportilio.min.js` is loaded after jQuery library.

```html
1  <link rel="stylesheet" href="css/jportilio.css">
2  <script src="//code.jquery.com/jquery-1.11.2.min.js"></script>
3  <script src="js/jportilio.min.js"></script>
```

2. Create a grid of filterable items with the 'data-tags' attribute, which is a list of tags assigned to specific item.

```html
01  <div id="jprt-1" class="jprt-container">
02
03    <!-- first item -->
04
05    <div class="jprt-item" data-tags="fruits">
06      <div class="jprt-caption">
07
08        <!-- caption -->
09
10      </div>
11      <div class="jprt-content">
12
13        <!-- content -->
14
15      </div>
16      <div class="jprt-hover">
17
18        <!-- hover -->
19
20      </div>
21    </div>
22
23    <!-- second item -->
24
25    <div class="jprt-item" data-tags="fruits,vegetables">
26
27      <!-- ... -->
28
29    </div>
30
31    <!-- other items -->
32
33  </div>
```

3. Create a group of tag buttons to filter the grid of items by tags.

```
01  <div class="jprt-buttons">
02
03     <button class="jprt-btn"
04       data-jprtgrid="jprt-1"
05       data-tag="fruits" >
06       Fruits
07     </button>
08
09     <button class="jprt-btn"
10       data-jprtgrid="jprt-1"
11       data-tag="vegetables">
12       Vegetables
13     </button>
14
15  </div>
```

4. Initialize the plugin.

```
1  $(function () {
2
3     $('.jprt-container').jportilio(OPTIONS);
4
5  });
```

5. Plugin options available.

```
01  $(function () {
02
03     $('.jprt-container').jportilio({
04
05     filter: [],
06
07     // the ratio of item's width to item's height
08     ratio:"0.75",
09
10     // number of items in row for small devices
11     // <768px
12     ws_xs: 1,
13
14     //  768px < x < 992px
```

```
15    ws_sm: 2,
16
17    // 992px < x < 1200px
18    ws_md: 3,
19
20    // 1200px < x
21    ws_lg: 4
22
23    });
24
25  });
```
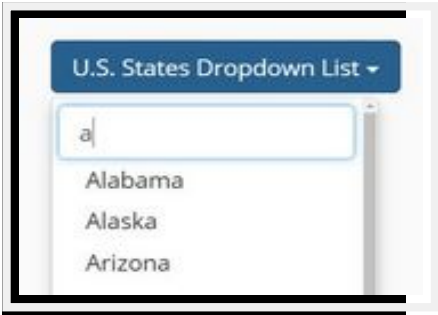

Change log:

2015-04-12

- item margin added
